News-item on Multi-fibre arrangement on Textiles as reported In Economic News From US'

1043. SHRI KAILASH PATI MISHRA: Will the Minister of COMMERCE be pleased to refer to the statement of US Chief Textile Negotiator Ronald Serini to the effect that GATT negotiations in April, 1989 have not resulted in any agreement to phase out Multi Fibre Arrangement on Textiles aa reported in "Economic News from US' of April, 1989 published by American Centre (USIC) in Delhi and state:

(a) the exact text of the agreement reached on textiles trade in April, 1989 GATT negotiations;

(b) what is meant by incorporation of NFA into GATT and whether it means that discriminatory textile quotas are sought to be institutionalised under GATT as an agreed departure from MFN principle; and

(c) what does the phrase 'poorest developing countries' include and cover in the context of textile exports and import?

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE (SHRI P. R. DAS MUNSHI): (a) The text of the decision of the Trade Negotiations Committee of April, 1989 is enclosed as Statement. *(See* below).

(b) Both the Punta del Este Declaration launching the Uruguay Round negotiations and the Agreement reached in Trade Negotiations Committee in April, 1989 envisage the integration of textiles sector in GATT and not the incorporation of MFA into GATT. Integration of the textiles sector into GATT implies an end to the current discriminatory regime in the sector.

(c) The phrase 'Poorest developing Countries' has not been defined in the United Nations or other multilateral forums, either in the context of textile imports and exports or **in any** other context. However, the decision of the Tirade Negotiations Committee of April, 1989, speaks of special treatment being accorded to the "least developed countries" which arte a well defined group in the United Nations.
